Each angler enters the lake for the purpose of fishing, completely at their own risk. You must take all necessary steps to safeguard your personal safety. We accept no liability for any death or personal injury.

We will not be responsible for any injury, illness, death, loss (for example loss of enjoyment), damage expense, cost or other sum or claim of any description (terms and conditions).

Respect

Lac Cavagnac is in a area of outstanding natural beauty and the local villagers have welcomed our business venture. In fact, we could not have gone ahead without their goodwill. It is important that all our guests respect this environment, including the lake inhabitants.

Our aim is to create a relaxing, high-quality venue with outstanding fishing. We want you to have a good time but if your idea of a fishing holiday is spending it drunk or stoned, may we politely suggest that you book elsewhere.

We will do our best to ensure you enjoy your holiday by looking after you and creating the best atmosphere you can have. You can ask for some help and advice. We're here to help you. We are not just dropping you to your swim.
